

## P1 touch2box with Android™

**The P1 touch2box is a small form factor mini PC with Android OS, compatible with most external touchscreen displays that support USB HID for Android.**

The P1 is based on a Rockchip Quad Core ARM processor with an integrated Multi-Media Processor, capable of seamless Full HD (1080p) video playback and ability to run most third party Android application software.

It is ideal for Interactive Digital Signage and Kiosk applications. Its small size means it can easily be placed inside a kiosk or mounted conveniently behind a touchscreen display.
